Phantom Flyers R/C Club Meeting Minutes – July 16, 2008

The meeting was opened by President Ed White at 7:00 pm with seven members present. There were no new members present.

Secretary's Report. The minutes of the June meeting were approved as written in the Carrier Wave. There is one clarification regarding the shirts that are available on zazzle.com. The shirts were created by Phil Moore with the full approval of the club at a club meeting. Use of the Microhenries on the shirts was also approved by Ed Henry, the copyright owner. Temporarily the shirts have been removed from zazzle. The club expressed a desire that the shirts be made available again.

Treasurer's Report: The treasurer presented the report which was approved.

There was no Mactivities report and no discussion of the GLSMA report that was published by Dave Evans.

Field Report included some discussion that some cracks still remained to be filled. The previous work party completely used up the 5 gallons of filler we had. We will re-evaluate the cracks later in the year when the weather is more reasonable for working on asphalt.

There were no safety issues raised.

Club Activities: The E-fly is coming up this weekend. We are tentatively planning an informal pattern seminar the following weekend (July 26-27). Contact Ed White if you are interested. The pattern contest is August 23-24. We will need some help including people to work the food concession and a couple people for general help. We will have a dinner Saturday evening again and contest helpers are welcome to attend.

Old Business: The club BBQ originally scheduled for June 8 was postponed. A new date was not set but the preference was for later when the weather gets a bit cooler.

There was no new business.

THE MEETING WAS ADJOURNED AT 7:09 PM

Dan Sundman presented a tech session on the system he built into an electric glider to carry a Canon digital camera. The camera is triggered by a micro servo on a spare channel. The mount system is simple and allows the camera to be removed very easily. A neat design, hopefully we'll see a Carrier Wave article soon – hint – hint.

Electric Fun-Fly 19-20 July, 2008

The yearly Electric Fun Fly was a success. Your editor was unable to attend due to an enjoyable family commitment. Thanks to Ben Lanterman and Harold Weaver for supplying photographs of the event. Unfortunately, no commentary was supplied with the camera work. Enjoy!

Ben Lanterman and one of his creations. Thanks again for the pictures.
